

HNE Brings Flu Vaccinations to Your Worksite!

In partnership with Louis & Clark Pharmacy and Big Y, HNE is pleased to offer the flu vaccine to your employees at your worksite.

Preventive Care

Preventive care includes periodic health evaluations, like annual physicals. Adult preventive immunizations such as the flu shot also are preventive care. At HNE one of the ways we encourage our members to get preventive care is through \$0 cost sharing. We've done this for years, not because we have to, but because *it's the right thing to do.*

HNE, Louis & Clark, and Big Y share a common goal: to promote the health and wellness of the community. To accomplish this goal, we have joined resources to offer this unique, innovative service at your place of employment.*

Contact your Broker or HNE Sales Representative for more details.

*Shots are administered by trained medical professionals
