RE: Semi-Annual Notice of Changes

Dear Employers and Brokers:

As part of our commitment to provide affordable access to high quality health care, we continually review the benefits and services offered to our members. As a result, from time to time, we update the coverage we provide and change the way that coverage is administered. We then notify our subscribers and their employers, our brokers, and our contracted providers of these changes.

We have attached a copy of an amendment to the HNE Explanation of Coverage. We will notify HNE subscribers of this amendment with the next edition of our member newsletter, *Living Well*. If you have any questions, please call us at 413.233.3535.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Krawczyk", is written over a light beige rectangular background.

### Step Therapy Drug changes effective July 1, 2015:

For HNE to cover the Step Therapy drugs listed here, you first must try the corresponding First Line drugs. If HNE has paid a claim for the First Line drug within the previous 180 or 360 days (depending on the First Line drug), then you are eligible for coverage of the Step Therapy drug.

*The use of samples does not satisfy the requirements of documented usage of a First Line drug or medical necessity for a Step Therapy drug.*

If it is Medically Necessary for you to use a Step Therapy drug before trying a First Line drug, then your doctor can contact HNE to request a medical review.

<b>You must try:</b>	<b>First Line Drug(s):</b>	<ul style="list-style-type: none"> <li>Generic ADD/ADHD immediate or extended release products or Methylphenidate ER tablets (generic Concerta)</li> </ul>

### **Did you know you could save money on your allergy prescriptions?**

Allergies are a chronic condition. Treatment can be expensive. But, many allergy drugs are now available over-the-counter (OTC). Usually OTC drugs are not covered by your insurance. However, the OTC version may be less costly to you.

Over the past few years, the majority of allergy drugs have become available in both generic forms and OTC forms. Some examples are Nasacort 24hr, Flonase, Claritin, Zyrtec, and Allegra.
